Comments Report

1. Course Structure

^{1.5)} Additional comments for items 1.1 - 1.4

- none.

2. Class Environment

^{2.4)} Additional comments for items 2.1 - 2.3.

- For a 4 credit hour class I do not understand how just 2 hours a week for 16 weeks is enough to cover all the material required.
- none.

3. Instructor Responsiveness

^{3.4)} Additional comments for items 3.1 - 3.3.

- Feedback is pretty automatic which is the only good thing I can say about this class.
- none.

4. Effectiveness

^{4.3)} Additional comments for items 4.1 - 4.2.

- Following Cisco Academy may be beneficial for those who want to get their Cisco Certs but trying to cover 11 chapters in 16 weeks is IMPOSSIBLE. Not to mention the fact that while this class is considered an introductory course it is FAR FAR FAR from it.
- none.

5. Overall

^{5.2)} Additional comments concerning this course.

- none.
- Overall this is the best professor that I had so far at JCCC, he is a very understanding teacher and is always ready to help.
- There should and needs to be at least 1 tutor that can help in this class.
- This is by far the worst class I have taken here. I have learned nothing except for how to find the answers on Google. The class time is not long enough, not to mention you get 10 minutes to go over the hardware and that is it. Most of the labs have to be done outside of class time which makes it hard for someone like me who has an hour commute to school on way. I have to work my schedule around classes they host in the labs which means most of the time I can only get in on the weekend which is hard considering I work part time on the weekends. I knew nothing about networking when I stepped foot into the class but the way this course is taught they expect you to have basic knowledge already. THIS CLASS NEEDS A SERIOUS EVALUATION!!!
