## Comments Report

## 2. Class Environment

<sup>2.4)</sup> Additional comments for items 2.1 - 2.3.

- I feel as though he doesn't create a atmosphere that gives one confidence in their learning experience because of the demeanor that he has as far as when you ask questions and he answers with a tone of frustration and annoyance and it was like that since day one. It got to the point where no one hardly ask questions (which seems as though that's exactly what he wanted to be honest) because we didn't want to deal with his attitude as well tone as though we were suppose to learn this stuff on our own. I remember a situation with a student that dropped the class shortly after the semester started as well as others because we all felt the same way about the instructor, where he nervously asked where was he on the power point because we had all lost track and the instructor strongly said " I don't expect you guys to keep up that's why you do the homework"! We were all blown away with the comment as well as the instructor leaving quickly once the class is over. He does sometimes ask if we need help and that is all the while he is moving to the door with his belongings under his arms and exiting the class.

## 4. Effectiveness

<sup>4.3)</sup> Additional comments for items 4.1 - 4.2.

- The course in itself seems to not be user friendly at all. I am a fulltime worker and school so I don't have a whole lot of time to be at the school for lab so therefore I have to download all the programs to my home computer and for this course there is like five programs to download and when there is homework you are sometimes instructed to do a assignment that requires 2 to 3 programs to be open and with the way that he teaches you have to figure out how to do it pretty much on your own time. Day one he instructed us on the programs we would be using which is in the syllabus but he never like explained like hey if you have a problem downloading it you may have to take this route. I know that we can email him but it isn't the same as in person. He just give you the impression that he's teaching a classroom full of veteran networking students and that is not the case and discouragement is very much what me and the rest of the class has felt when coming to class.
