Comments Report

1. Course Structure

^{1.5)} Additional comments for items 1.1 - 1.4

- I really appreciate how you have everything laid out by date. It makes it very easy to make sure I get my homework done.
- Instructor Tim Golden gave instructor Akram Al-Rawi Linux teaching materials to use that were filled with mistakes, misspellings and errors. Instructor Akram Al-Rawi did a great job of teaching the class and correcting all of Tim Golden's mistakes

2. Class Environment

^{2.4)} Additional comments for items 2.1 - 2.3.

- It is unbelievable how patient you are. I always feel I can ask any question. When something goes wrong in the lab, you take the time to not only fix the issue, but explain what happened.

3. Instructor Responsiveness

^{3.4)} Additional comments for items 3.1 - 3.3.

The evaluation will not be displayed due to low response rate.

4. Effectiveness

^{4.3)} Additional comments for items 4.1 - 4.2.

- As I stated before, it blows me away the fact you will fix any issue you come across in the lab, and then explain the why and the how.
- Too much time is spent on labs during class in my opinion. I mostly do the labs outside of class, especially in these 'hybrid' classes. The labs are pretty straightforward and we are given step by step directions. So I would rather spend class time going over core concepts rather than following a lab manual.

5. Overall

^{5.2)} Additional comments concerning this course.

- I am very fortunate having you as a professor. Your level knowledge astonishes me and inspires me to work to hard.
- I would love to take instructor Akram Al-Rawi for other classes in the future.
