Comments Report

1. Course Structure

1.5) Additional comments for items 1.1 - 1.4

- information put on canvas is not organized it is thrown into modules with very little discription. Then documents themselves are not readable they are words in lines and symbols all put together with no readable organization. Makes information uptake very difficult. to the point I wasn't able to use the docs and pursued other resources to try and learn the components of this course.

2. Class Environment

2.4) Additional comments for items 2.1 - 2.3.

- the instructor is very respectful but again the material organization on canvas is what is motivation my response to 2.1

3. Instructor Responsiveness

3.4) Additional comments for items 3.1 - 3.3.

No data available.

4. Effectiveness

4.3) Additional comments for items 4.1 - 4.2.

No data available.

5. Overall

5.2) Additional comments concerning this course.

- Instructor is great. There are some interesting programs that supplement these courses that we just gloss over zenmap, snmp gui. I get it, it's cisco focused but it would be nice to have a little more information on other programs and hardware related to networking.
