# Comments Report

#### 1. Course Structure

<sup>1.5)</sup> Additional comments for items 1.1 - 1.4

No data available.

#### 2. Class Environment

<sup>2.4)</sup> Additional comments for items 2.1 - 2.3.

No data available.

#### 3. Instructor Responsiveness

- <sup>3.4)</sup> Additional comments for items 3.1 3.3.
- I never asked how I was doing, but sure he would tell me.

#### 4. Effectiveness

<sup>4.3)</sup> Additional comments for items 4.1 - 4.2.

No data available.

#### 5. Overall

- 5.2) Additional comments concerning this course.
- For online classes I prefer youtube videos instead of zoom calls. It can be difficult to join zoom calls and with shorter videos that I can speed up the playback speed on I get through things at my own pace.
- This is a summer course and very compacted. If the student completes and submits the assignment before the course terms, I believe they should received the credit of the work produced. This not an easy class, it does take time and dedication to sit down and not just learn but understand the information. Completing the work to me shows motivation and determination. It should not be based on the fact the work was submitted via comments, that's a negative impact on the student when they are already doing their best to keep up. Other than that, the class is awesome, I learned how to calculate a subnet and that has been my highlight.
