# Comments Report

## 1. Course Structure

1.5) Additional comments for items 1.1 - 1.4

- Would like to see required weekly lectures not based on lab but based on chapter material

## 2. Class Environment

2.4) Additional comments for items 2.1 - 2.3.

- Even being online, the course feels very welcoming and easy to communicate in.
- Would like to be allowed to use outside resources more often. To simulate real work environments and to be taught proper methods of researching troubleshooting step for specific problems. ie you have specific form of malware find the best resource to stop and remove it

## 3. Instructor Responsiveness

3.4) Additional comments for items 3.1 - 3.3.

- Our professor grades assignments very quickly. It's always very obvious where we are in the class and how we're doing.

## 4. Effectiveness

4.3) Additional comments for items 4.1 - 4.2.

- I think lectures over chapters instead of labs can be very beneficial due to people having different forms of being able to learn effectively. ie by doing, by seeing , by hearing
- Our professor provides optional meetings to help us step through labs if we need help. There is tons of feedback on assignments to help us know if we're going in the right direction.

## 5. Overall

5.2) Additional comments concerning this course.

- I've continued to take classes from this professor and continue to enjoy them.
- The professor reviewing labs in class really helped when later completing them on my own. I found I was much better able to recall the information than if I had only read the text.
